

Ten Year Warranty

Ten Year Warranty

In addition to any implied or explicit warranties or assurances provided solely by the manufacturer, Merit Electronics Corporation extends to all customers a 10 year warranty against electrical failure on all components sold.

Merit Electronics, in its sole and absolute discretion, may require a neutral 3rd party testing facility to substantiate claims of electrical failure with sufficient testing data. If within this 10 year period from shipment should any component(s) experience electrical failure, Merit Electronics Corporation will replace those components with adequate replacements at no charge, or in the alternative and at the sole and absolute discretion of Merit Electronics Corporation, issue a full refund for all failing components.
